Biology: Concepts and Connections (4th Edition) Neil A. Campbell, Jane B. Reece, Lawrence G. Mitchell, Martha R. Taylor

Created to spark readers' sense of wonder about life in its many forms, *Biology: Concepts and Connections* invites readers into the world of biology. While encouraging readers to explore interactive media activities, the book facilitates mastery of concepts and core biological material through unique modules that combine exceptional art, text that "walks" readers through the illustrations, and compelling real-world connections. These modules help readers break down the reading into manageable sections. Special modules cover interesting topics like health, economics, and the environment to show readers how biology is relevant to them. For anyone interested in introductory biology.
