## **This book has actionable strategies on how to turn a complete stranger into a lifelong friend to discover the true power of friendship.**

A friend in need is a friend indeed. So does the old adage go. When you have a good friend, you have a partner who will not only be there for you in times of happiness and celebrations, but someone who will also be there in times of fear and sadness, or be there for you when you're down and weary.

A good friend will pick you up when you fall, give you a shoulder to lean on, and an ear to listen to your fears and worries. While it's better to have a friend than to need one, meeting and making a friend out of a stranger is never easy.

Are you often shy or doubtful of your ability to approach strangers? Are you often anxious in the presence of strangers? If you are, your anxiety and lack of self-confidence in social situations emanates from the fear that random people may judge you or react in an unfriendly manner.

The truth is, turning a stranger into a friend isn't an easy task perhaps because despite your desire to meet new people and turn them into friends, different people have different views, values and react differently to observations and situations.

Often times we're unable cultivate friendship not because there is a shortage of places to meet new people, but because we lack the motivation and self-confidence required to get started.

Further, different opinions and understandings make it harder for different people, including yourself to meet, make, and maintain a friendship. This doesn't have to be the case though, and there is something you can do to turn complete strangers into lifelong friends.

Forget your Facebook and social media friends who you can chat for hours but never care about each other outside of the internet. The world made up of real, physical people, who need care, attention, love, touch and a lot more. In fact, many are the times when you will be lonely even after chatting for hours with your so-called friends on social media. There is an element of emptiness in 'digitalization' when it comes to nurturing friendships. But that doesn't have to be so. Whatever your reasons are for having a hard time meeting new people and becoming good friends, this book will help you to understand how to change that and transform yourself from the lonely self to whatever else you want for yourself that entails interacting with people.

This book will outline simple steps and tips guaranteed to teach you how to approach and transform a

stranger into a lifelong friend.
