## **Parallel Computing Technologies: 7th International Conference, PaCT 2003, Novosibirsk, Russia, September 15-19, 2003, Proceedings (Lecture Notes in Computer Science)**

The PaCT-2003 (Parallel Computing Technologies) conference was a four-day conference held in Nizhni Novgorod on September 15–19, 2003. This was the 7th international conference of the PaCT series, organized in Russia every odd year. The first conference, PaCT-91, was held in Novosibirsk (Academgorodok), September 7–11, 1991. The next PaCT conferences were held in: Obninsk (near Moscow), 30 August–4 September, 1993; St. Petersburg, September 12–15, 1995; Yaroslavl, September 9–12, 1997; Pushkin (near St. Petersburg) September 6–10, 1999; and Akademgorodok (Novosibirsk), September 3–7, 2001. The PaCT proceedings are published by Springer-Verlag in the LNCS series. PaCT-2003 was jointly organized by the Institute of Computational - thematics and Mathematical Geophysics of the Russian Academy of Sciences (Novosibirsk) and the State University of Nizhni Novgorod. The purpose of the conference was to bring together scientists working with theory, architectures, software, hardware and solutions of large-scale problems in order to provide integrated discussions on Parallel Computing Technologies. The conference attracted about 100 participants from around the world. Authors from 23 countries submitted 78 papers. Of those submitted, 38 papers were selected for the conference as regular ones; there were also 4 invited papers. In addition, a number of posters were presented. All the papers were internationally reviewed by at least three referees. As usual a demo session was organized for the participants. Many thanks to our sponsors: the Russian Academy of Sciences, the Russian Fund for Basic Research, the Russian State Committee of Higher Education, IBM and Intel (Intel laboratory in Nizhni Novgorod) for their financial support. The organizers highly appreciate the help of the Association Antenne-Provence (France).

**From reader reviews:**

**Randy Johnson:**

In other case, little persons like to read book Parallel Computing Technologies: 7th International Conference, PaCT 2003, Novosibirsk, Russia, September 15-19, 2003, Proceedings (Lecture Notes in Computer Science). You can choose the best book if you like reading a book. So long as we know about how is important a book Parallel Computing Technologies: 7th International Conference, PaCT 2003, Novosibirsk, Russia, September 15-19, 2003, Proceedings (Lecture Notes in Computer Science). You can add information and of course you can around the world by way of a book. Absolutely right, since from book you can know everything! From your country right up until foreign or abroad you will end up known. About simple factor until wonderful thing you may know that. In this era, we can easily open a book or perhaps searching by internet product. It is called e-book. You need to use it when you feel fed up to go to the library. Let's read.

**Eula Hunter:**

Precisely why? Because this Parallel Computing Technologies: 7th International Conference, PaCT 2003, Novosibirsk, Russia, September 15-19, 2003, Proceedings (Lecture Notes in Computer Science) is an unordinary book that the inside of the publication waiting for you to snap this but latter it will zap you with the secret the item inside. Reading this book alongside it was fantastic author who all write the book in such awesome way makes the content on the inside easier to understand, entertaining method but still convey the meaning entirely. So , it is good for you because of not hesitating having this any more or you going to regret it. This excellent book will give you a lot of benefits than the other book have such as help improving your talent and your critical thinking means. So , still want to delay having that book? If I were being you I will go to the reserve store hurriedly.

**Joshua Smith:**

A lot of reserve has printed but it is different. You can get it by net on social media. You can choose the very best book for you, science, comedian, novel, or whatever through searching from it. It is identified as of book Parallel Computing Technologies: 7th International Conference, PaCT 2003, Novosibirsk, Russia, September 15-19, 2003, Proceedings (Lecture Notes in Computer Science). You can contribute your knowledge by it. Without causing the printed book, it can add your knowledge and make anyone happier to read. It is most critical that, you must aware about book. It can bring you from one place to other place.

**Charles Moreno:**

Reading a book make you to get more knowledge from it. You can take knowledge and information from a book. Book is written or printed or outlined from each source in which filled update of news. In this modern era like at this point, many ways to get information are available for you actually. From media social similar to newspaper, magazines, science publication, encyclopedia, reference book, story and comic. You can add

your understanding by that book. Do you want to spend your spare time to open your book? Or just looking for the Parallel Computing Technologies: 7th International Conference, PaCT 2003, Novosibirsk, Russia, September 15-19, 2003, Proceedings (Lecture Notes in Computer Science) when you essential it?
