From a geological standpoint, Kawai is the oldest of Hawaii's main islands, which probably explains why they had a head start in making it right. There's a reason they call this the "Garden Isle" and the "Island of Discovery." It's just that beautiful! Despite its spectacular scenery, Kauai is not the most populated of Hawaii's islands, with only about 69,512 people as of 2013's census figures. Some suggest that there are actually more wild chickens than people, a breed brought over by the earliest Polynesian settlers which have thrived because they have few natural predators. This does not mean that there's nothing to do on the island besides eating chicken, though. Far from it. This travel guide ebook will fill you in on the best places to stay, eat, drink, explore, and discover.
