## **The Psychology of Criminal Conduct: Theory, Research and Practice** Ronald Blackburn

Taken from published reviews: " Dr Blackburn has written a remarkably good book; indeed, the best book on the topic from either side of the Atlantic I have read. the breadth of the author s knowledge is nothing short of encyclopaedic. Not only psychology developmental and social, as well as clinical but also psychiatry, biology, philosophy, and law are addressed in this volume. Finally, the book is written with clarity, economy, and a lucid style. It is as inviting and user-friendly as any work of such complexity can be. I hope that it will find its way into psychiatry residency training programmes as well. It could do wonders for replacing turf-battles with common ground." *Criminal Behaviour & Mental Health* " The scholarly breadth and accuracy of this work are remarkable. There seems to be no important contribution to our psychological understanding of crime which Blackburn has omitted to discuss, including those approaches from sociological and social psychology which are frequently neglected in straightforward psychological treatments. Moreover, all approaches are intelligently and sympathetically discussed." *Expert Evidence* " The volume is infused with the author s enthusiasm for a social cognitive perspective on offending behaviour, but he also robustly defends the utility of the notion of personality traits. Overall, this book brings together a vast array of research and theory examined from the perspective of the clinician involved with the individual. It will almost certainly become the key background text for post-graduate courses teaching forensic psychology and would be a valuable addition to the bookshelf of any clinician with forensic concerns." *Clinical Psychology Forum* " This is undoubtedly an important book. The end result is a book of excellent quality, which I recommend most warmly to clinical psychologists, and indeed, to anybody who is interested in criminological psychology ." *Behaviour Research and Therapy* " This author is to be congratulated for having produced this impressive volume. It provides a comprehensive review which is critical yet well-balanced. It assumes no prior familiarity with the field, and specialists from many different disciplines will learn a great deal from it." *Criminal Law Review*

#### **Randy Hunter:**

Is it you actually who having spare time subsequently spend it whole day through watching television programs or just lying down on the bed? Do you need something new? This The Psychology of Criminal Conduct: Theory, Research and Practice can be the response, oh how comes? A fresh book you know. You are and so out of date, spending your free time by reading in this completely new era is common not a nerd activity. So what these textbooks have than the others?

#### **Jeremy Robinson:**

As a student exactly feel bored to reading. If their teacher asked them to go to the library or even make summary for some book, they are complained. Just minor students that has reading's heart or real their hobby. They just do what the professor want, like asked to the library. They go to there but nothing reading significantly. Any students feel that looking at is not important, boring in addition to can't see colorful photographs on there. Yeah, it is being complicated. Book is very important in your case. As we know that on this age, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. Therefore this The Psychology of Criminal Conduct: Theory, Research and Practice can make you experience more interested to read.
