## **Characters of Finite Coxeter Groups and Iwahori-Hecke Algebras (London Mathematical Society Monographs)** Meinolf Geck, Götz Pfeiffer

Finite Coxeter groups and related structures arise naturally in several branches of mathematics such as the theory of Lie algebras and algebraic groups. The corresponding Iwahori-Hecke algebras are then obtained by a certain deformation process which have applications in the representation theory of groups of Lie type and the theory of knots and links. This book develops the theory of conjugacy classes and irreducible character, both for finite Coxeter groups and the associated Iwahori-Hecke algebras. Topics covered range from classical results to more recent developments and are clear and concise. This is the first book to develop these subjects both from a theoretical and an algorithmic point of view in a systematic way, covering all types of finite Coxeter groups.

### **From reader reviews:**

#### **Carissa Taylor:**

Playing with family in the park, coming to see the ocean world or hanging out with pals is thing that usually you could have done when you have spare time, subsequently why you don't try thing that really opposite from that. One particular activity that make you not sensation tired but still relaxing, trilling like on roller coaster you have been ride on and with addition of knowledge. Even you love Characters of Finite Coxeter Groups and Iwahori-Hecke Algebras (London Mathematical Society Monographs), it is possible to enjoy both. It is good combination right, you still desire to miss it? What kind of hang-out type is it? Oh come on its mind hangout people. What? Still don't buy it, oh come on its called reading friends.

#### **Jose Gould:**

The book untitled Characters of Finite Coxeter Groups and Iwahori-Hecke Algebras (London Mathematical Society Monographs) contain a lot of information on the idea. The writer explains the girl idea with easy technique. The language is very clear to see all the people, so do definitely not worry, you can easy to read the item. The book was authored by famous author. The author gives you in the new time of literary works. It is possible to read this book because you can read more your smart phone, or device, so you can read the book throughout anywhere and anytime. If you want to buy the e-book, you can open their official web-site as well as order it. Have a nice read.

#### **Katie Duffy:**

In this period globalization it is important to someone to obtain information. The information will make anyone to understand the condition of the world. The health of the world makes the information simpler to share. You can find a lot of sources to get information example: internet, newspaper, book, and soon. You can see that now, a lot of publisher this print many kinds of book. The book that recommended to your account is Characters of Finite Coxeter Groups and Iwahori-Hecke Algebras (London Mathematical Society Monographs) this reserve consist a lot of the information in the condition of this world now. This kind of book was represented just how can the world has grown up. The language styles that writer value to explain it is easy to understand. Often the writer made some exploration when he makes this book. This is why this book suitable all of you.

#### **Hoyt Knapp:**

Many people spending their time by playing outside using friends, fun activity along with family or just watching TV all day every day. You can have new activity to spend your whole day by examining a book. Ugh, do you think reading a book can really hard because you have to take the book everywhere? It all right you can have the e-book, taking everywhere you want in your Smartphone. Like Characters of Finite Coxeter Groups and Iwahori-Hecke Algebras (London Mathematical Society Monographs) which is having the e-book version. So , try out this book? Let's find.
