Continuity of life governs the rhythm of passion on this planet. It is the desire to survive, which makes all of us keep going and moving forwards, without this innate need, all of us would have been gloomy and dull about our presence on this planet. This need makes us to fight for our survival. .

Bushcraft can be thought of a most practical approach for making survival possible. Like many other bodies of knowledge, especially designed to cater a particular situation, bushcraft is based upon the need to save life in the most unexpected and unusual situation. This unusual situation mostly entails to a wilderness or forested area.

In this book I have tried to make the reading quite simple and comprehensible, so that you can follow the tips in the best possible way without any need of a trainer or other expert. All you have to do is to imagine the possibility of uses pertaining to a knife.

The major discussions and the accent areas highlighted in this book entail to the following leading issues:

- A prelude about Bushcraft, its emergence and need, to make the reader aware about the reality and practical approach followed in designing the techniques of bushcraft.

- The essential and the opening information about a knife, as a survival tool, its types and uses based on wide assortments of features
- A list of twenty five wilderness tips which you can follow, even if all that you have is a knife with you.
