Manual for Ear Training and Sight Singing Gary S. Karpinsky

This is not a reference book. You will not be able to open it to any chapter and find a quick answer to a question about music. This book is not about music, it is a book that helps you do musical things well. This book works very much like a cookbook. If you want to taste a cake, you don't merely read a recipe. Instead, you follow the recipe's instructions and make a cake so that you can taste it. Similarly, if you merely read this manual, you'll get as much satisfaction as you would from only reading a recipe. But if you follow this manual's instructions, you'll make music.
