In *Holding Police Accountable*, nine of today's leading scholars on police work examine seminal research on the use of force and how it can inform today's research. The volume celebrates the late James J. Fyfe, the preeminent scholar on police use of force. In 1978 Fyfe found that administrative controls—training, guidelines, and regulation—reduced deadly shootings by officers without adversely affecting law enforcement or crime rates. The finding not only had profound impact on firearms policy, but compelled police departments to cooperate with independent researchers. Here, the scholars pick up the torch to work toward effective yet fair policing that will better protect all Americans.
