Science of Ecosystem-based Management: Narragansett Bay in the 21st Century (Springer Series on Environmental Management)

Science of Ecosystem-based Management: Narragansett Bay in the 21st Century (Springer Series on Environmental Management)

In the U.S., approximately two-thirds of the coastal rivers and bays are moderately to severely degraded from nutrient pollution. The contributors to this book use long-term data sets to discuss the interactions among biological, ecological, chemical, and physical processes, and discuss what is known about nutrient inputs to the bay ecosystem, the impacts related to nutrient inputs, and how the ecosystem might respond to a sudden reduction in these inputs.
