**The Curvy Astronomer and the Cowboy (He Wanted Me Pregnant!)** Victoria Wessex  
**From USA Today Bestselling Author Victoria Wessex: a standalone romance with a HEA and no cliffhangers.**

**Curvy astronomer Emily is used to life on her own.** She lives on the road, making just enough from her photos to survive. But for her latest assignment, she'll have to find somewhere that's really, REALLY dark--some place far away from all civilization.

**Cowboy Troy knows horses, not the Horsehead nebula.** He agrees to take the stubborn scientist out to a tiny cabin in the mountains, rather than see her get lost...but a blizzard traps them there, miles from the nearest living soul.

A Wyoming winter can be dangerous: howling winds, blizzards, even bears. Can Troy protect the curvy stargazer...and tell her he's fallen for her? And will loner Emily really want to stop running, settle down...and start a family?
