*Adolescents in Public Housing* incorporates data from multiple public-housing sites in large U.S. cities to shine much-needed light on African American youth living in non-HOPE VI public-housing neighborhoods. With findings grounded in research, the book gives practitioners and policy makers a solid grasp of the attitudes toward deviance, alcohol and drug abuse, and depressive symptoms characterizing these communities, and links them explicitly to gaps in policy and practice. A long-overdue study of a system affecting not just a minority of children but the American public at large, *Adolescents in Public Housing* initiates new, productive paths for research on this vulnerable population and contributes to preventive interventions that may improve the lives of affected youth.
