Martin Luther King, Jr. is a man well known for his bravery in obtaining freedom and equality. During his time, discrimination was an accepted facet of life-- nobody dared to question the ways of separating “the black” from “the white”. But he did.

Nowadays, you can now see a black person in any industry: they have the right to education, housing, jobs, and politics. Today is a far cry from King’s time when Negroes were not allowed in shopping malls, in schools or in banks.

He, along with the people who shared his vision, made this kind of freedom and equality possible. But as times goes by, people tend to forget. Schools try to remedy that problem by letting students know who Martin Luther King Jr. is.

This book will also help you in your quest to know the man behind the famous “I Have a Dream” speech. It will highlight King’s journey from childhood to the fateful day of his death. If you were not born in his time, it’s your chance to get a glimpse of what it was like before and compare it to what is happening now.

You will also learn a lot about his legacies and ideologies. On top of it all, you will learn that the desegregation now is because some people from before stood up for what was right.
