Human and Nonhuman Bone Identification: A Color Atlas on DVD Diane L. France

As a companion to the text, **Human and Nonhuman Bone Identification: A Color Atlas on DVD** provides an electronic guide to comparative osteology specimens for quick and easy access. This DVD allows for the identification of the bones of 27 species. Suitable for both novices and for professionals who are already working in the laboratory or the field, this comprehensive reference features high quality photographs that review the differences between locomotor patterns in quadrupeds and in bipeds. It also presents photographs of different animals grouped by bone to allow for direct comparison as well as photos of all bones grouped by species.
